

Discussion Questions

1. Were you surprised to learn that so many of the world's children live in poverty, with 40% of the global population trying to survive on 5% of the world's income? Explain. What sociological theory best explains this fact? Support your answer.
2. Were you raised more by the “concerted cultivation” or “accomplishment of natural growth” parenting approach? How has this upbringing influenced your success in school and your willingness to challenge authority figures?
3. What is the social status of most of the people with whom you hang out? Why do you think you tend to associate with people from this social status?
4. Describe factors at the (a) micro, (b) meso, and (c) macro levels that impact your ability to move up the social class ladder.
5. How do the forces that have led to the shrinking of the middle class impact your chance of becoming (or remaining) a member of the (a) middle, (b) upper-middle, or (c) upper class after you graduate from college?
6. How can bridging the global digital divide lead to a decrease in inequality across the world? How does your ready access (or lack of access) to a computer and the Internet impact *your* life chances?
