

CONTENTS

Introduction and Structure of the Book	vii
Acknowledgements	xii
Guided Tour	xiii
Part One Starting Your Research	1
1 Getting Started: Theory, Research Question and Research Design	3
2 Being Ethical	29
3 Literature Searching and Reviewing	54
4 Theory and Research: Quality and Quantity	74
Part Two Data Collection Strategies	99
5 Introduction to the Process of Qualitative Research	101
6 Qualitative Interviewing	118
7 Focus Groups	131
8 Ethnography	146
9 Case Study Research	165
10 Collecting Textual and Visual Data: Public and Private	179
11 Grounded Theory as an Abductive Approach to Data Collection	190
12 Introduction to Quantitative Research Design	203
13 Hypotheses, Operationalization and Variables	215
14 Sampling	225
15 Survey Design	239

16	Collecting and Coding Quantitative Data	271
17	Methodological Innovations: Mixing Methods and e-Research	293
Part Three Data Analysis		317
18	Introduction to Qualitative Data Analysis	319
19	Coding Qualitative Data: Qualitative Content Analysis	338
20	Semiotic and Narrative Forms of Discourse Analysis, and Doing Conversation Analysis	361
21	Using Computer Software: Working with NVivo 8	388
22	Visual Analysis	423
23	Introduction to Quantitative Data Entry	445
24	Quantitative Data Analysis: Describing Single Variables	468
25	Describing and Exploring Relationships between Two Variables	507
26	Inferential Statistics and Hypothesis Testing	529
27	Data Management Techniques	559
Part Four Presenting Research		577
28	Presenting Research Findings	579
	Glossary	604
	References	641
	Index	655
