CONTENTS

List of Case Studies x
List of Figures xii
List of Tables xv
Acknowledgements xix
Companion Website xx

1 **Introduction** 1
Organizational research in the real world 2
The nature of theories 5
The organization of the book 6
How to use the book 9

PART A Principles and Planning for Research 11

2 **Theoretical Perspectives and Research Methodologies** 13
Inductive and deductive reasoning 14
Epistemological and ontological perspectives 16
Theoretical perspectives 18
Research methodologies 26
Selecting research approaches and strategies 32

3 **Selecting and Planning Research Proposals and Projects** 39
Selecting a research topic 40
Topics to avoid 47
Planning the project 49
Writing academic proposals 50
Writing organizational proposals 63
The final stages for academic and organizational proposals 65

4 Research Ethics **68**
What do we mean by ethics? 69
The growth of ethical codes of practice 70
The focus of ethics 73
Ethical principles 73
Putting ethics into practice 81
Ethics and management research 88
Ethics and the Internet 89
Researching in your own organization 91
Ethics and research reports 92
A checklist of ethical issues 92
Safety issues for researchers 94

5 Searching, Reviewing and Using the Literature **98**
What function does the literature serve? 99
The literature search journey 100
The literature search process 102
Searching source materials 104
The process of evaluating sources 116
Managing information 120
Synthesizing search results 121
Structure and content of the literature review 122
Positioning the literature review 122

PART B Research Methodology 129

6 Research Design: Quantitative Methods **131**
The structure of experimental research 132
Experimental and quasi-experimental research design 140
Generalizing from samples to populations 148
Designing valid and reliable research instruments 155

7 Research Design: Qualitative Methods **164**
Some criticisms of quantitative research 165
Characteristics of qualitative research 166
Paradigms and strategies for qualitative research 167
Approaches to qualitative design 173
The role of the researcher 182
Using the literature in qualitative research 183
Collecting qualitative data 184
Ethics and qualitative research 188
Ensuring rigour in qualitative research 189

8	**Research Design: Mixed Methods**	**199**
	Differences between quantitative and qualitative research	200
	What do we mean by mixed methods research?	203
	Types of mixed methods design	205
	The benefits of mixed methods designs	212
	Some potential weaknesses of mixed methods research	215
9	**Designing Descriptive and Analytical Surveys**	**218**
	What is a survey?	219
	Types of survey	220
	Stages in the survey process	225
	Selecting a survey method	229
	Conducting a staff opinion survey	234
	Reducing sources of error	238
	Ethics and good practice in survey design	243
10	**Designing Case Studies**	**246**
	When should we use case studies?	247
	The case study design process	249
	Types of case study design	255
	Data collection sources	258
	Quality in case studies: validity and reliability	260
	Analysing the evidence	263
	Composing case study reports	268
11	**Designing Evaluations**	**278**
	The focus of evaluation	279
	Schools of evaluation	286
	Data collection sources	292
	Data collection tools	294
	Quality issues in evaluation	299
	Planning the evaluation report	302
	Enhancing the impact of evaluation	305
	The ethics of evaluation	306
12	**Action Research and Change**	**312**
	What is action research?	313
	The action research process	317
	The role of researchers and participants	323
	Methods of data gathering	324
	Validating action research	327
	Ethics and action research projects	328
	Some of the limitations of action research	331

PART C Data Collection Methods 335

13 **Collecting Primary Data: Questionnaires** **337**
Why use questionnaires? 338
Designing questionnaires 339
Designing Internet and Web-based questionnaires 357
Piloting questionnaires 359
Maintaining quality: validity and reliability 362
Questionnaire administration 364

14 **Collecting Primary Data: Interviewing** **369**
Why use interviews? 370
Selecting interview approaches 371
Designing credible interviews 375
Interviewing skills 378
Group interviews 388
Using telephone interviews 391
Ethical issues 391

15 **Collecting Primary Data: Observation** **396**
Approaches to observation 397
Gathering and recording observational data 402
The process of observation 408
Validity and reliability issues 416
Presenting observational data 417
Ethical issues in observational studies 419

16 **Collecting Primary Data: Unobtrusive Measures** **424**
Identifying physical measures 425
Documents: running records 428
Documents: episodic records 431
New unobtrusive measures: digital archives 433
Ethical issues in using digital technology 437

PART D Analysis and Report Writing 447

17 **Analysing and Presenting Quantitative Data** **449**
Categorizing data 450
Data entry, layout and quality 454
Presenting data using descriptive statistics 458
Analysing data using descriptive statistics 462

The process of hypothesis testing: inferential statistics 466
Statistical analysis: comparing variables 469
Statistical analysis: associations between variables 481

18 Analysing and Presenting Qualitative Data 493
Elements of qualitative data analysis 494
Analysing qualitative data 499
Other approaches to qualitative analysis 513
Quality in qualitative analysis 515
Using computer-assisted programs 518

19 Writing up the Research 523
The report writing process 524
The report structure 530
Ethical and legal considerations 542
Developing a writing style and tone 545
Undertaking a review process 549

20 Preparing for Presentations and Vivas 552
Preparing the presentation 553
Structuring the presentation: beginning, middle and end 555
Structuring the presentation – the density of ideas 556
Creating interest in presentations 558
Delivering the presentation 560
Team presentations 561
Preparing for and surviving vivas 564
Transferring from MPhil to PhD 566
Preparing for the viva 567
During the viva 569
After the viva 570

Glossary of Terms 574
References 583
