UNDERSTAND CRIME AND JUSTICE FROM A RACIAL AND ETHNIC PERSPECTIVE
WITH SAGE REFERENCE’S UNIQUE, NEW ENCYCLOPEDIA OF RACE AND CRIME

Los Angeles, London, New Delhi, Singapore, and Washington, DC (January 15, 2009)—The study of race and crime has a long history in the disciplines of criminology and criminal justice, but it was not a recognized area of study until the last quarter of the 20th century. Today, with issues such as terrorism, homeland security, hate crimes, and racial profiling increasingly dominating the headlines, the field is expanding accordingly.

SAGE Reference’s new, interdisciplinary two-volume Encyclopedia of Race and Crime is the first resource of its kind to examine both the impact of race and ethnicity on crime and the administration of justice in historical and contemporary contexts. Highly accessible, expertly written, A-to-Z entries present state-of-the-art information related to the focus of race and crime, including important biographies, organizations, cases, concepts, theories, and key topics such as the following:

- Courts
- Death Penalty
- Drugs
- Gangs
- Gender
- Homicide Trends
- Immigration
- International Issues
- Media
- Police
- Prison Populations
- Public Policy
- Race Riots
- Violence

Considering the experiences of all major racial and ethnic groups in the U.S., as well as religious minorities, coverage includes recent incidents like the Tulia, Texas drug arrests; the Rodney King beating; and the O.J. Simpson trials. Helpful information on how to locate and interpret statistical data on race and crime is also provided.

All public and academic librarians will want to offer students, researchers, scholars, and general readers alike SAGE’s one-of-a-kind Encyclopedia of Race and Crime.

Editor Helen Taylor Greene is Professor of Public Affairs at Texas Southern University. Co-Editor Shaun L. Gabbidon is Professor of Criminal Justice at Penn State Harrisburg.

SAGE is a leading international publisher of journals, books, and electronic media for academic, educational, and professional markets. Since 1965, SAGE has helped inform and educate a global community of scholars, practitioners, researchers, and students spanning a wide range of subject areas including business, humanities, social sciences, and science, technology and medicine. A privately owned corporation, SAGE has principal offices in Los Angeles, London, New Delhi, Singapore, and Washington, DC. www.sagepub.com
