**NEW ACCESS OPTIONS FOR AWARD-WINNING
SAGE FULL-TEXT COLLECTIONS**

Los Angeles, London, New Delhi, and Singapore (November 22, 2006) – SAGE Publications announced today it has developed new sales and additional online access options for its award winning, discipline specific research databases known as the SAGE Full-Text Collections. The details of these announcements are outlined below.

SAGE Full-Text Collections on Highwire Press (SAGE Journals Online) and the CSA Illumina platform

Starting January 1, 2007, SAGE will now offer its customers a new option for accessing the *SAGE Full-Text Collections*. Launched in 2003, the 10 discipline-specific *SAGE Full-Text Collections* have been available exclusively on the CSA Illumina platform. Starting January 1, 2007, SAGE customers will be able to access the *SAGE Full-Text Collections* on both the CSA Illumina and SAGE Journals Online platforms. To further ensure flexibility of access, the *SAGE Full-Text Collections* will remain available on the award winning CSA Illumina platform, which provides integrated searching and full-text retrieval amongst similar databases. SAGE and CSA have made special arrangements for an extended grace period for subscriptions due to renew in January 2007.

“Flexibility of access options is important to our library customers and users,” commented Tom Taylor, SAGE Vice President of Marketing and Sales, “thus we have made the *SAGE Full-Text Collections* available on SAGE Journals Online (powered by Highwire Press).”

SAGE Sales Team

In order to meet our customers needs more fully, starting in 2007 the SAGE library sales force, with Regional Managers around the world, will be responsible for selling the SAGE Full-Text Collections, as well as other SAGE online products. To contact the SAGE sales team, please send an e-mail to librarysales@sagepub.com.
